A Few Facts Concerning

Rupture

In order to become proficient in the study of medicine, general preparation and experience are necessary in order to practice with any degree of safety. Dr. W. A. Lewin, the rupture specialist, is a graduate of several European and American colleges and has devoted many years to the study of this particular branch of medical science.

He treats rupture without the use of the knife without strapping bands, without danger and without detention from regular occupation.

All is accomplished within a few weeks and no more is accomplished until the opening through which the intestine protrudes is completely closed and permanently healed. This is done by building up new tissue, a growth similar to that over a wound that has healed, so that the patient is stronger at this spot than he was before the rupture occurred.

Consultation and advice free. No pay required until cured to your entire satisfaction. Send for free booklet containing testimonials. 10,000 patients cured. Call or address,

EMIGRANTS HELP SMUGGLER

Leaf Tobacco, Worth \$100,000, Is Brought Into New York by Steerage Passengers.

A novel method of bringing Sumatra tobacco leaf into the United States without paying duty has been brought to the notice of the New York custom house officials and agents have been set at work on the case.

It is estimated that Sumatra leaf valued at \$100,000 has entered that port in the last three months without duty.

Emigrants sailing from Bremen, Hamburg and other Dutch and German ports have been given a card, which is printed in German and Hebrew, and tells the recipient to visit a certain person at a given address and receive a present.

If the emigrants called they were told how to obtain employment in America and given a small package wrapped in colored paper and warned not to open it until the barge office at New York had been left behind.

Agents of the smuggler invariably met each load of emigrants outside the barge office and requested the package as a means of identifying the seeker for employment.

At the proper moment the agents disappeared, taking the smuggled tobacco along.
